## Author's Note

This document was created by converting the XHTML into a L<sup>A</sup>T<sub>E</sub>X file using a custom PHP script, see my [HTML to PDF release](#)<sup>1</sup> for clues. The L<sup>A</sup>T<sub>E</sub>X file is then converted into this PDF via the `pdflatex` console command. HTTP links have been highlighted for ease of identification. These links should be clickable in any PDF viewer. I have also added footnotes containing the link's target to aide you if you've printed off this PDF.

If you have any comments or corrections then please [contact me](#)<sup>2</sup>, thank you.
